Francis Collins MD, PhD  
Director, National Human Genome Research Institute  
National Institutes of Health (NIH)  
Bethesda, MD

Genomics, Medicine, and Society  
Wednesday, January 16, 2008  
Noon – 1:00 pm  
Boys Town National Research Hospital Auditorium  
- Lunch Provided -

Objectives:
1. To understand the nature of rapid advances in understanding the structure & function of the human genome;
2. To appreciate the potential applications of these advances to prevention, diagnosis, & treatment of disease, both in the near & far term;
3. To explore the implications of this knowledge of the human instruction book for society.

CME credits:
The Creighton University School of Medicine designates this educational activity for a maximum of 1 AMA PRA Category I Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in this activity. The Creighton University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Dr. Collins’s visit to Omaha is sponsored by Countryside Community Church, where he will be speaking at 7:00 pm on January 16. Please contact the church for ticket information: 391-0350.
